# SPONSORSHIP OPPORTUNITIES

**We** thank you for taking time and considering sponsoring LWCS Athletics programs. We desire to teach students how to live healthy lifestyles through sports and a program that challenges them to "eat this, not that."

**We** also feel that students will learn how to work together through teamwork, and work together as a team to accomplish specific goals. We believe that lasting friendships will be created through our athletic programs and friends that work together to accomplish a similar goal will last throughout time.

**Playing** on a sports team teaches children, not only the skills they need to excel at the sport, but also teaches them commitment. Studies show that if students learn commitment at a young age, when they are older, they will not depart from that teaching. In adulthood, commitment is needed in so much more than sports, but in the workplace and in relationships, so it is important to us that students understand the value of commitment and teamwork.

**The** challenges of running a private school are great, and many times an athletic program is one of the last things on the priority list. We don't want that to be the case. We believe that each school, public or private, should desire to see their students have the chance to excel academically, personally, and athletically. We believe that our program may even give children an opportunity to play sports where they may not have had the chance in a bigger public school.

**We** have 4 different sponsorship opportunities available to you as all people and companies are different. We thank you in advance for which ever opportunity fits you or your company the best.
